SAVE OUR JETTY

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

SAVE OUR JETTY

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

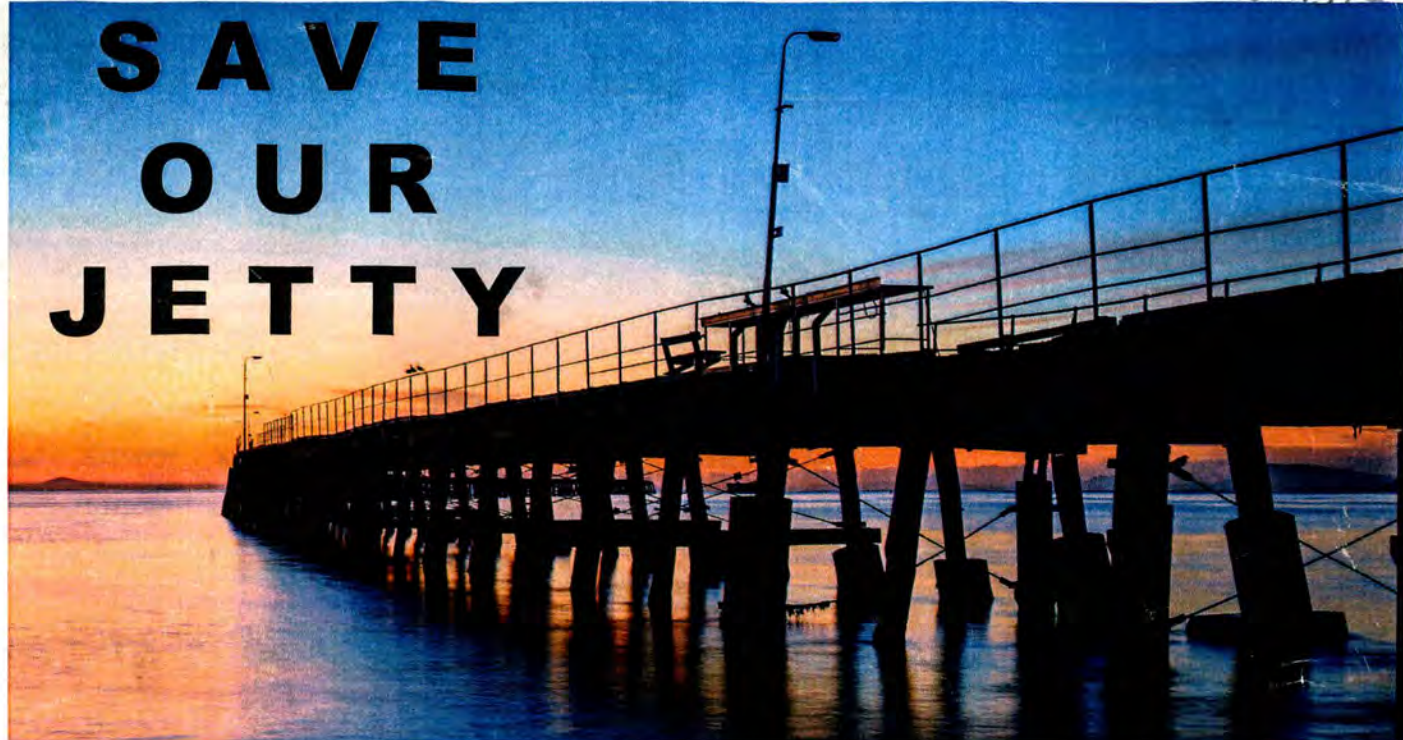

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

SAVE OUR JETTY

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

THANKS

SAVE OUR JETTY

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

SAVE OUR JETTY

201

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

SAVE OUR JETTY

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

SAVE OUR JETTY

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

ESPERANCE TANKER JETTY

INFORMATION SHEET

Save Our Jetty Support

The Jetty Group seeks your financial support for engineering and heritage studies to show that the iconic Esperance Tanker Jetty can be restored to its former glory and remain our town's most significant cultural heritage icon.

The Esperance Shire Council has short listed tenders and will award a contract in early November for the demolition of this Heritage Council listed structure. The Jetty Group is seeking a conservation order from the Minister for Heritage forcing the Council to defer its appointment.

The Jetty Group now has a short time frame to carry out these important studies and prepare a business case to show conclusively that the jetty can be restored and be maintained in posterity for our children and future generations.

We have short time frame to ensure that the only authentic wooden jetty remaining on Western Australia's coastline remains our most important tourist attraction with the financial and economic benefits continue to flow from the centrepiece attraction of our town.

Any financial support will help us to engage highly qualified consultants and to meet the extremely tight time frame that the Esperance Shire Council has given us to show conclusively that the Tanker Jetty can not only be restored but can be maintained to the highest possible standard without posing a financial impost on local ratepayers.

Thank you for your concern and support.

ESPERANCE JETTY

89

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

SAVE OUR JETTY

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

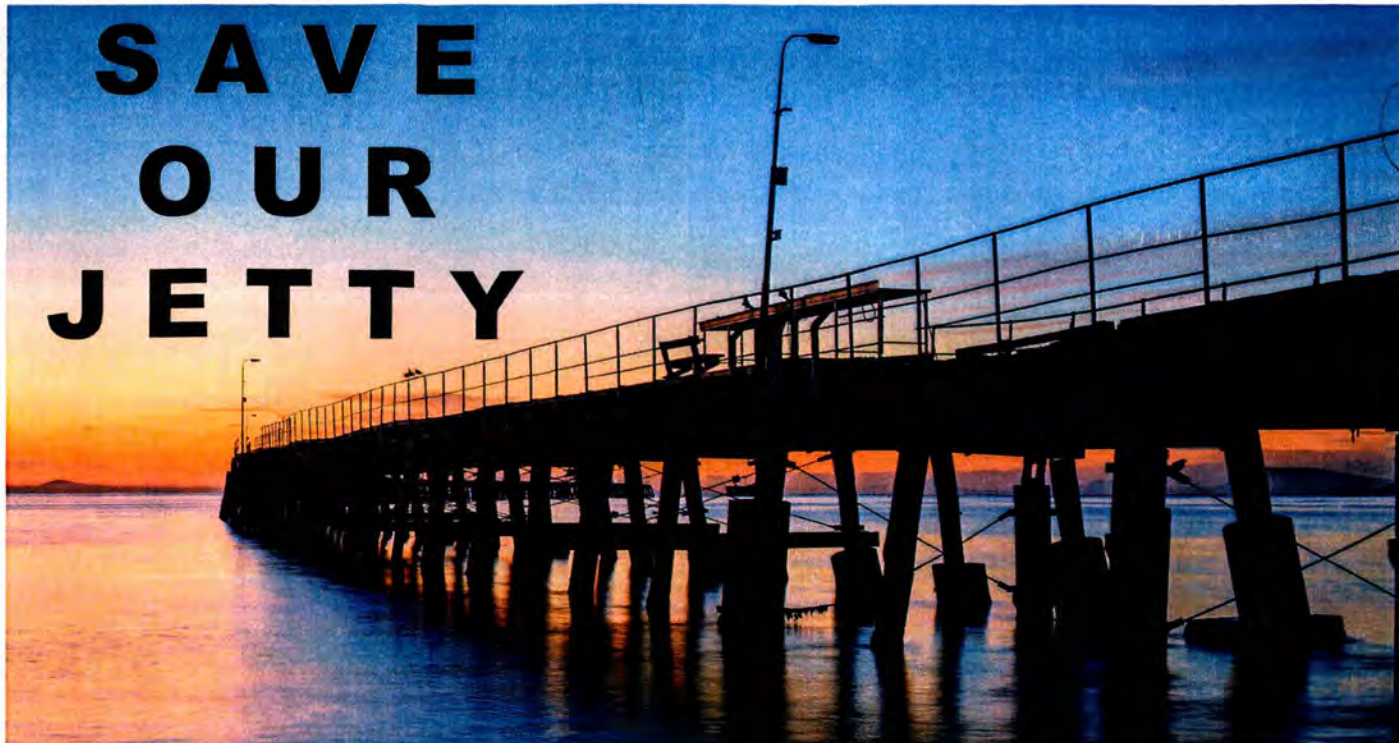

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

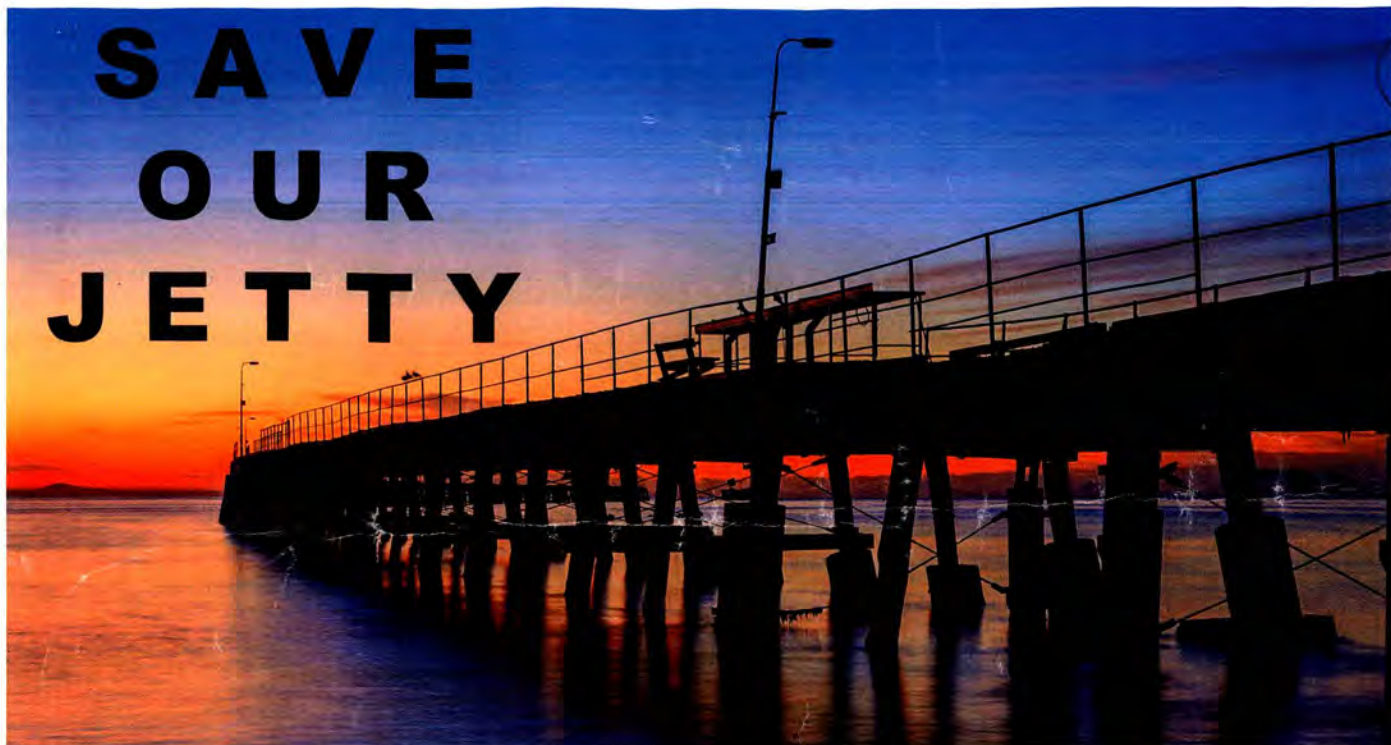

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."
