

SAVE OUR JETTY

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

SAVE OUR JETTY

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

SAVE OUR JETTY

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 million dollars. Funding has not been obtained for the new structure and The Jetty Group believes this level of funding is not available now, nor will it be in the future. Therefore, once the jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to SAVE OUR JETTY by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty. We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed**. The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our towns major tourist attraction

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 million dollars. Funding has not been obtained for the new structure and The Jetty Group believes this level of funding is not available now, nor will it be in the future. Therefore, once the jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to SAVE OUR JETTY by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty. We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed**. The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our towns major tourist attraction

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 million dollars. Funding has not been obtained for the new structure and The Jetty Group believes this level of funding is not available now, nor will it be in the future. Therefore, once the jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to SAVE OUR JETTY by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty. We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed**. The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our towns major tourist attraction

Save the Jetty

SAVE OUR JETTY

June Nicoletti

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

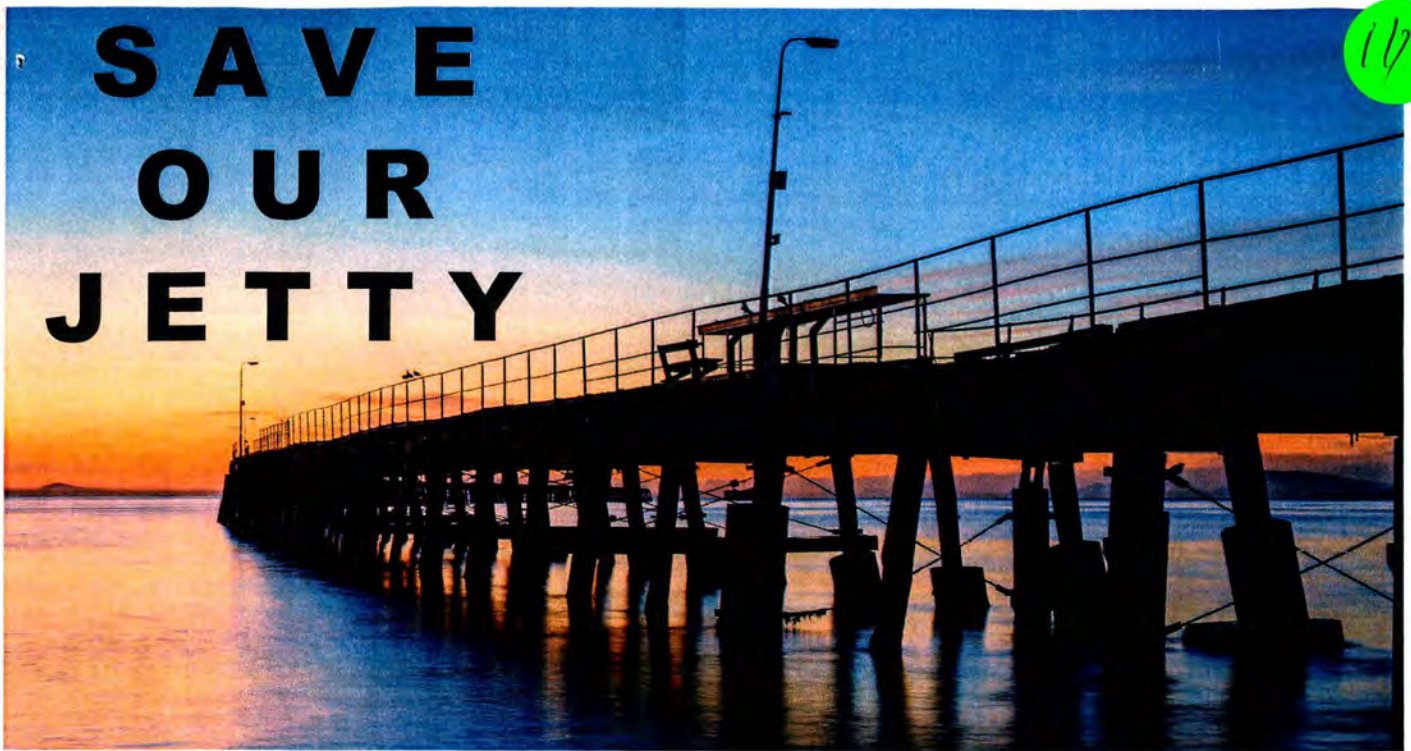

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.

"We, the undersigned, support a re-evaluation of the Esperance Shire Council's decision to demolish the historic Tanker Jetty.

We believe other alternatives must be explored, including the current structure being restored **before this valuable asset is destroyed.**

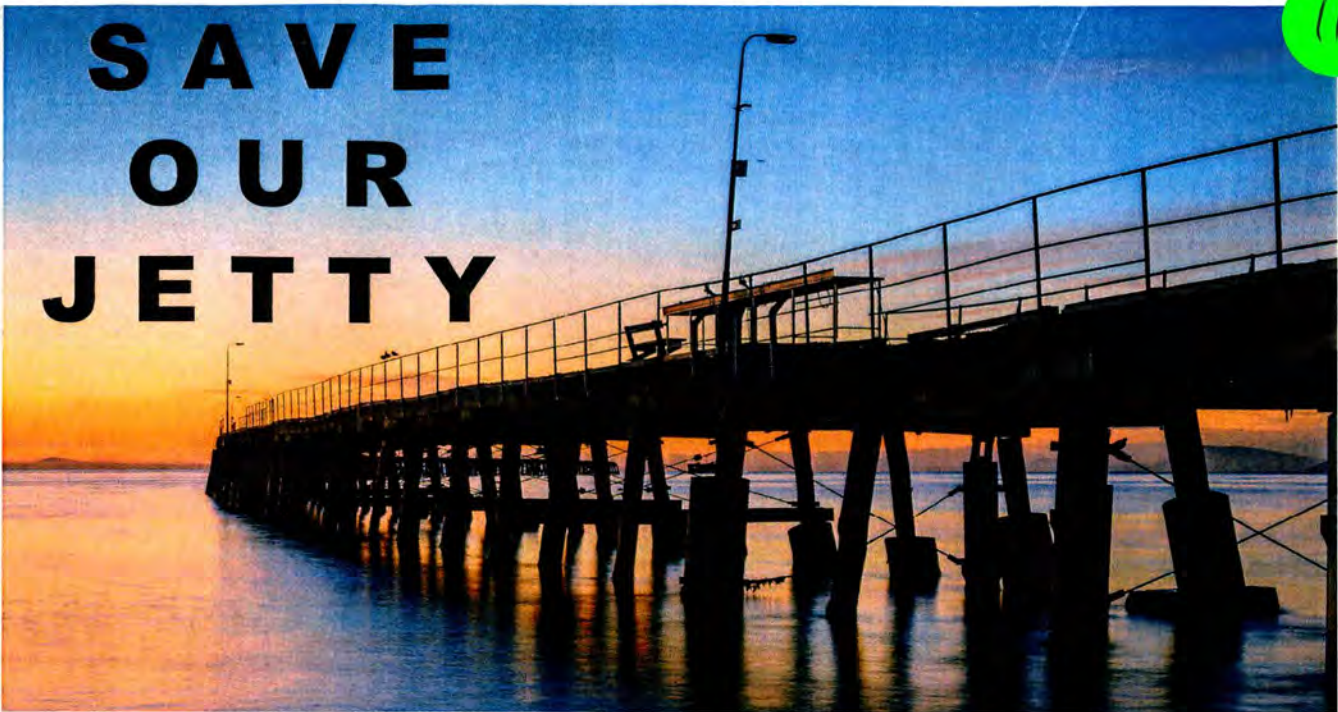

The Tanker Jetty has immense cultural and historic value to the people not only of Esperance, but also the wider Goldfields Esperance Region as well as being our town's major tourist attraction."

SAVE OUR JETTY

140

The Esperance Shire Council voted unanimously to demolish the Tanker Jetty and replace it with a new structure. This new structure may cost 10 to 15 Million dollars. Funding has not been obtained for the new structure and the Jetty Group believes this level of funding is not available now nor will it be in the future. Therefore, once the Jetty is removed it is extremely unlikely that it will be replaced.

The Jetty Group requests your support to **SAVE OUR JETTY** by signing this petition.
