My family arrived in Esperance in 1963 from Scotland

I started school at Condingup, and later finished both primary and secondary high school here in Esperance. I then completed an apprenticeship as a mechanic with my fathers business here in Esperance. Several years spent living and working both overseas and in other states around Australia. Eventually I settled in Mount barker as the owner of the Mount Barker Hotel. Here I was involved in the community and had the privilege of being on the team which built the Mount Barker Bendigo community bank in town. I served as the chairman and on the board. After many more years working in Hospitality, Tourism and Mining around Australia we moved back to Esperance to be close to our family.
