

Candidate Details

Ballot paper name

MUREITHI, David Kinyai

Candidate name

David Kinyai MUREITHI

District

Shire of Esperance

Nominating for

Councillor for Town Ward

Election type

Extraordinary

Enrolment status

MUREITHI, David Kinyai is eligible to stand for election as a resident of the Shire of Esperance.

I'm a passionate father of four (2 adults and 2 kids) and lucky husband to Betty, who continues to love and tolerate me, 25 years on.

I value open conversation, accountable and practical decision-making and believe Council should focus on delivering value for ratepayers while supporting a strong, sustainable and connected multicultural community especially for our future generation.

If elected I would work constructively with Council and the community to champion the Esperance Council Plan 2026-2036 which blends youth priorities into its overarching 10year roadmap. The missing gap I'd propose to Council with a view to creating and enhancing community engagement will be the formation of a Youth Council. I believe young people are the key to help guide intergenerational learning, cultural continuity and community problem solving for Esperance.

Additional Information

I was born in Kenya and begun my Aussie journey in 1999 through a tertiary education at Edith Cowan Uni then quickly moved into the working environment. My 20+ years of professional experience has involved the procurement, project management and supply chain of goods, services and works in Technology, Civil and Infrastructure industries while working with WA Local Government Association, City of Joondalup, Development WA, DPIRD, WA Health, WA Education, and WA parastatals in Perth.

Then came the move to Esperance in June 2021 working for the local Port. My family and I have grown to love living and working here and enjoy the pleasure of participating in local sport (real football / soccer) and dance classes. The Edge of the Bay Festival is a personal favourite event and in my spare time if I'm not venturing the outdoors I'm volunteering with the local Mission to Seafarers. I'm hoping through this ideal trial opportunity I'm successful in displaying my commitment to give back to this place I call home.
