

Candidate Details

Ballot paper name	PIERCEY, Dale
Candidate name	Dale Patricia PIERCEY
District	Shire of Esperance
Nominating for	Councillor for Town Ward
Election type	Extraordinary
Enrolment status	PIERCEY, Dale is eligible to stand for election as a resident of the Shire of Esperance.

A long term resident of Esperance I am a widow with a grown family.

I have a degree in Sociology and history/politics, Diploma in Local Government, Diploma in Counselling and a Graduate Diploma in Regional Development, which I would like to put to good use.

I believe we need improved health facilities, in particular a hospice/geriatric hospital. Also we have under-utilised tourist spots we could develop. We can no longer rely on just our beautiful beaches.

As a former Councillor I fought against the landfill site being within a catchment area, I fought to have the pet cemetery re-opened, I fought to have more businesses as suppliers to the shire and I fought for locals who needed assistance when interacting with the shire.

We live in a magnificent part of the world and I want to ensure our amenities are also magnificent. I also want to know what you consider important to the town and would like to have happen.

Additional Information

Born in Kalgoorlie, I moved to Esperance in 1980, after having many happy holidays here.

Esperance is a magnificent place to live and visit, and has the opportunity to blossom into something even more spectacular.

I believe we need:

Hidden beauty spots to be more easily accessible. They are assets which should not remain hidden from view. For too long we have allowed the world to pass our hidden treasures by. Many of our beauty spots are unknown. We need to allow locals and visitors alike to visit and enjoy these areas without requiring 4WD vehicles.

Council to listen to what residents have to say, what they want to happen, what they think should be done or not done. You have the right to have your suggestions taken into serious consideration.

To have our pet cemetery re-opened. It closed in 2015 and has not re-opened. We need a beautiful resting place for our precious pets.

A hospice/geriatric hospital, especially for people with a late-stage terminal illness so they do not need to be in our already over-stretched hospital but in peaceful surroundings where they can be cared for with dignity. Our hospital staff are wonderful but there is only so much they can do. These patients need peaceful surroundings and we should fight for them.

A Council that concerns itself with providing the best amenities possible without highly inflated rates. You need maximum benefits at minimum cost. You, as a resident of this town, should receive best value for your rates possible.

Councillors who listen to locals and take their suggestions seriously.

A Council that is open to other people's ideas.

When I was on Council previously I fought for locals. I always acted in what I believed was the best interests of the area. I refused to be led by the nose. I am proud of having done so and would like to continue working for the town.

My pledge to you is that I will always act in the best interests of the town and its residents.
