

CAMP RULES FOR OVERFLOW CAMPING AREA:

Welcome to The Shire of Esperance overflow camping area. The following “rules” are intended to assist in ensuring that everyone is afforded the respect and courtesy that they deserve when staying in the overflow camping area. We appreciate your support and assistance in this regard.

- Dogs are to be kept on lead at all times within the camp site
- No generators please before 7 a.m. and after 9 p.m. daily
- Keep noise to a minimum out of respect for fellow campers
- Remember the speed limit within the campground area is 5 km/hour – this is a safety protective measure for all at the overflow area
- Disposal facilities are provided for rubbish – please use to assist us in ensuring the area is kept clean and tidy.
- Please camp only in designated areas – definitely no camping under trees (this is for your safety – our concern but your responsibility).
- Please familiarise yourselves with the emergency evacuation plan and be aware where the safety assembly area is located.

Above all enjoy your stay here and please provide feedback to ranger services staff as we strive to continue to improve the overflow camping area for your ongoing pleasure and enjoyment.

Kind Regards

All at Ranger Services and the Shire of Esperance.
