Direct Debits

Rates payments made easy

PAYMENT OPTIONS

In full

Instalments

Weekly, Fortnightly or Monthly

If you have a bank account, then you might want to take advantage of Direct Debit in order to pay your rates easily.

What is Direct Debit?

Direct Debit is a system by which weekly, fortnightly or monthly payments are taken directly from your bank account. You set up your Direct Debit once and then the money automatically comes out of your account at the right time. Direct Debit is quick, safe, easy, and spreads your payments evenly over the period.

Safety

One advantage of Direct Debit payments is that it is much safer than paying by cheque or cash, because the money simply comes out of your account and goes direct to your rates assessment.

Certainty

Another reason why Direct Debit is a great idea is that it gives you the certainty to know your payments will be paid in full and made on time.

Easily manage your payments

If you pay by Direct Debit, then you know exactly how much and when the funds will be taken from your account. This can help you to better manage your money and stay one step ahead when it comes to expenditures. You can also cancel your Direct Debit in writing at any point, thereby easily stopping the funds from leaving your account.

No processing fees

Unlike some payment methods, there are no fees associated with Direct Debit payments. Only the money that you owe is taken out of your account, with no extra fees to pay whatsoever. This is different than paying by cheque or other methods where you might have to pay a processing or handling fee.

Direct Debit is the quickest, safest and easiest way to pay your rates

Just complete this form and either fax, mail or drop it into the office, allowing sufficient time for processing before the first payment is to be debited. If you have any questions please contact the Rates Department on (08) 9071 0657.
