

Over the next few months I will be targeting Clubs to complete the below Club Health Check to see as many of you as possible get the benefit the check has been designed to achieve. Please read the information below and have a look at the link for further details and take the information to your committees and have a go at completing it together .

Australian Sports Commission (ASC) Club Health Checklist

The ASC Club Health Checklist has been formed as a tool to assist Clubs with their overall management, governance and planning both at a strategic and an operational level. To this end, the questions within the ASC Club Health Checklist focus on the key areas that drive clubs; how clubs set – and reach – targets considered important to running a successful club. The report provided at the completion of the survey gives clubs a clear picture of whether their operations and activities are on target to achieve their goals.

The Club Health Check is an online self-assessment tool aimed at helping clubs examine how they are operating. The checklist looks at a number of different factors that are crucial to success at club level and together these factors are used to build an overall picture of the way your club carries out its operations.

The assessment should take no more than **15 minutes** to complete. Once you have answered all questions, a detailed report will be emailed to you which will identify improvements and growth areas for your organisation.

We recommend the assessment be completed by **2 or 3 people** within your committee and preferably 'key' people who have an overall perspective of the clubs operations and activities.

Did you know that if you would like to receive funding from the Department of Sport and Recreation you will need to have completed an ASC Club Health Check.

As your Club Development Officer I am more than happy to attend one of your committee meetings to help guide you through the ASC Club Health Check.

Once the report is received I can also offer support to implement strategies to improve the identified areas within your clubs report.
