TANKER JETTY REPLACEMENT SURVEY RELEASED

The Tanker Jetty Replacement Survey is now open for community input and Council is urging everyone to take part and have their opinion heard.

After a unanimous decision by Council last month to demolish the jetty in the interest of public safety and financial interests of ratepayers, discussions have turned to what the community would like to see as a replacement. The Tanker Jetty Replacement Survey will allow the diverse community opinions to be collated so a decision can be made for the benefit of the community as a whole.

The survey can be completed online or by paper copies conveniently located at the Library, the Visitor Centre, Senior Citizens Centre and the Shire Administration Building. They will also be available at various Council Corners held through February and March.

The Council Corners will provide an opportunity for community members to discuss ideas face to face with Councillors, and will be at the Yabby Classic on 27th February, Sunday Markets on 13th March and Condingup Fair 19th March. For those who are unable to attend, Councillors are always available to speak with, and everyone is urged to take part in the survey.

Shire President Victoria Brown said "There are such a wide variety of opinions throughout the community about what should be built, where it should be built, what it should include and how much it should cost, so it is vital we gather as much community input as we can in order to move forward."

A second fact sheet has been released to answer some of the questions the Shire has been hearing from the community. Both fact sheets are a way of ensuring community feedback is based on up to date information and can be found on the Shire website along with a link to the online survey at www.esperance.wa.gov.au
