Stadium Milestone

A significant milestone for the Indoor Stadium was reached today with the handover of the southern carpark. The southern carpark is now open to the public for use. The Shire would like to thank the public for their understanding while there was reduced parking at the Indoor Sports Stadium.

Lighting for the southern carpark will not be operational until the switchboard for the new stadium is complete. The public are also advised that there will be loose stones on the carpark surface until the stones have been worked into bitumen.

The project is on track and on budget with the pouring of the concrete stadium floor slab and concrete tilt panels complete. Over the coming weeks the tilt panels will begin to be installed.

CEO Matthew Scott said, "You will soon start to see the stadium coming up out of the ground. It is great that the car park has been handed over and is now open in time for the show. You will be able to see the progress of the stadium as you pass by when you're at the show!"

Ends
