**25 January 2018**

## **Jetty Design Tender Open**

The Shire of Esperance is calling for submissions from suitably qualified consultants to undertake Detailed Design Development for the replacement of the Esperance Tanker Jetty.

The project needs to be led by a heritage consultant or heritage consultancy firm who will lead and form a team of suitably qualified and experienced sub consultants. The team is required to deliver the detailed design of the Esperance Tanker Jetty that meets the needs and expectations of the Esperance community and requirements of the Heritage Council of Western Australia (who have reviewed the scope of works).

CEO Matthew Scott said, "This is a step forward along the path to providing the Esperance community with a new jetty, one that will meet the needs of generations to come while not being a financial burden."

The successful tenderer will be expected to work with the Shire, Jetty Replacement Working Group, Department Planning, Lands and Heritage and Heritage Council of Western Australia to develop the design of the new jetty from draft design concept to final detailed engineering drawings, which can then be used for future funding applications and construction tenders. This tender also contains various progress (or hold) points requiring both the Shire Council and Heritage Council consideration before proceeding to the next design stage. This will ensure an open and public process allowing the community at large to see the new jetty design evolve and advance over time.

A copy of the documentation must be obtained by registering your details via the Shire's e-Procurement portal at [www.tenderlink.com/esperance](http://www.tenderlink.com/esperance). Tender documentation must be submitted electronically via the Shire's e-Procurement portal no later than 2.00pm AWST, Thursday 1 March 2018. Responses submitted by facsimile, email post or hand delivery will not be accepted for evaluation.

All information to date on the Esperance Tanker Jetty is available on the Shire's website.
