

EXT 032: SEASONAL INDOOR SPORTS STADIUM FEES

Document Status:	Current	CM Ref:	D20/24380
Document Controller:	Manager Council Enterprises	Version No:	1
Date Adopted:	March 2020	Resolution #:	O0320-078
Date Reviewed:		Resolution #:	

Objective

This policy provides the methodology for calculating seasonal fees for the Indoor Sports Stadium by utilising the “Charge per Unit” as specified within the Annual Shire of Esperance Schedule of Fees and Charges.

Policy

This policy applies to users of Shire of Esperance Indoor Sports Stadium. Council will set a ‘unit’ charge for the seasonal use of Shire of Esperance sporting fields. Seasonal Indoor Sports Stadium fees will be calculated based on the following formula:

Number of Courts x Hours per Week x Season Length x Peak or Off-Peak = No. of units.

The number of units is then multiplied by the “charge per unit” to determine the total owing by each seasonal user.

Casual hire of the stadium will also be available on an hourly basis. These hourly rates will also be set by Council within the Annual Shire of Esperance Fees and Charges, with the definition of court size and peak and off-peak timing consistent with that used in the seasonal calculations.

Notes:

Number of Courts is calculated per standard basketball or netball court

Season Length is measured in weeks booked.

The *unit rate* is equivalent to the *off-peak rate*, the peak rate is the equivalent to two units.

Peak refers to 3pm onwards on Monday – Friday and all day Saturday, excluding School Holidays.

Off-Peak to all times other than *Peak*.
